(Dist. V)

ACTION TAKEN: Following a short break, Chairman Anderson called the meeting back into order and introduced the public hearing regarding the Boca Quarry West Pit Expansion Project.

Mr. Brian Foss, Planning Director, introduced Mr. Tyler Barrington, Principal Planner. Mr. Barrington reviewed the staff report and provided a PowerPoint presentation, outlining background information and history of the proposed Project. The Project proposes a 118-acre expansion, which includes the requirement of a Timber Harvest Plan for the West Pit, and excavation of the West Pit area. Mr. Barrington reported that the Applicant is requesting to occasionally work through 9:00 p.m., based on market demand or operational needs. He noted that the proposed blasting is expected to take place once or twice per month. Mr. Barrington reported on the Reclamation Plan that requires approval from the Department of Conservation, and he reviewed the Development Agreement, that has a term of 30-years and includes existing entitlements. Mr. Barrington provided an overview of the associated Environmental Review process and Environmental Impact Report, completed by Helix Environmental Planning, Inc. He reported that the Project was approved by the Planning Commission on August 22, 2019 by a 4-0 vote (1 absent), recommending the Board of Supervisors approve the proposed Project. Mr. Barrington completed his report and requested the Board adopt both Resolutions, the Ordinance, and approve the Project.

Mr. Barrington and Ms. Kathryn Sylvester, Helix Environmental Planning Inc. representative, responded to Board questioning.

Mr. Michael Smith, Teichert Aggregates, Inc. representative, provided a PowerPoint presentation, reviewing the benefits the environment, community and County would experience as a result of the proposed Project including: a reduction in aggregate transportation and air emissions; traffic and bicycle safety improvements; alternative emergency access; implementation of the County's General Plan goals and policies; maintaining local jobs; and increased local sales tax revenue. Mr. Smith reported on the market demand for aggregate, explaining that a maximum of 1 million tons per year is needed to accommodate market demand. In response to concerns raised by the community, Teichert has agree to: change their hauling route; review their hours of operation which run from May 1 through October 31; blast only 10 times on an annual basis; increase bicycle safety; ensure that there will be no impacts to emergency vehicle access or school bus access; increase fire prevention through the Timber Harvest Plan and onsite water. In conclusion, Mr. Smith stressed that the Project meets all local requirements, and community concerns have been addressed. He requested the Board approve the proposed Project.

Board questioning and discussion ensued.

Supervisor Anderson asked about adding wording providing open-gate availability for emergency access within the Development Agreement. Mr. Barrington provided additional text.

Chairman Anderson opened the public hearing for public comment, and the following members provided comments: Ms. Cheryl Andresen, District V resident; Mr. Ron Legg, District V resident; and Mr. Matthew Coulter, District I resident. There being no further members of the public wishing to provide comments, Chairman Anderson closed the public comment portion of the public hearing.

Staff and Teichert representatives responded to the public's concerns.

Supervisor Anderson commented on the roads in the Truckee area used by the three quarries. There has long been dust and pollution impacts; he expected that the current project is superior in its lowered impacts on the neighbors and roads. Additionally, keeping additional trucks off of the highway from other areas, is a benefit to the community. He explained that the Truckee area is developing, and there is more construction happening. The repair work on the roads and highways is ongoing due to the usage and weather.

Board discussion continued.

Mr. Barrington requested a short break in order to address language in the Development Agreement regarding gate access. Following the break, Chairman Anderson called the meeting back to order and Ms. Alison Barratt-Green, County Counsel, provided the additional language to include in the Development Agreement:
