

Mental Health Services Act (MHSA) Report

05/13/2016

MHSA (Mental Health Services Act) Annual Progress Report (APR) and Exhibit 6 for FY 14/15 and 3-Year Plan Update for 16/17:

- Jennifer has collected data from the service providers and is starting to write the FY 14/15 APR
- Michele Violetta is working with fiscal staff to determine the estimated amount of funds expected to be received in FY 16/17.

Community Services and Supports (CSS):

- Behavioral Health staff and fiscal staff are working on contracts for next fiscal year.

Housing:

- Nevada County Housing Development Corporation is in escrow on a second MHSA house. The escrow period has been extended to 8/12/16.

Prevention and Early Intervention (PEI):

- Attending meetings with the Mental Health Services Oversight and Accountability Commission (OAC) to change the new PEI regulations having to do with demographic reporting.
- Working on FY 16/17 contracts.

Innovations:

- Nancy Callahan, Allison McClaughry, and Michele Violetta are working on the Truckee Innovation Plan. Draft of the plan is attached. The draft has been sent to the OAC and the MHSA stakeholders.

Workforce Education and Training (WET)-

- Two WRAP Facilitators are attending training in Red Bluff June 14th and 15th to being recertified WRAP Facilitators.

Technological Needs (TN): Anasazi

- In early October the patient portal was rolled out in Anasazi. This allows clients, once trained, to be able to review their clinical summary information via any computer with internet access and a secure password. Outreach is still being conducted to train clients on the use of the patient portal.
- Doctors' Electronic Prescribing of Controlled Substances (EPCS) is currently being implemented and should be complete soon.
- Continuing to work on getting Cerner updated on the "Meaningful Use" requirements. For 2016 staff will be initiating Stage 2 requirements:
 - o Five Clinical Decision Support Interventions Tools
 - o Electronic exchange of Lab results
 - o Health Information Exchange for transitions of care to and from other agencies
 - o Electronic appointment requests through Patient Portal
 - o Medication Reconciliation
