

Expanding Light Utility Site Plan Proof of Concept

Legend

- | | | | |
|--|--|--|---|
| | Ananda P.D. Boundary Line | | Existing Buried Power Line |
| | 25' Contour Intervals | | Transformer |
| | Ponds | | Vault |
| | 100' Wetland Buffer and 50' Stream Setback | | Solar Power Array |
| | Existing Vegetated Drainage Way | | Existing Septic Tank |
| | Ephemeral Streams | | Existing Active Septic Field |
| | Intermittent Streams | | Existing Reserve Septic Field |
| | Spring | | Proposed Residential Septic Tank |
| | Slope ≥ 30% | | Proposed Active Septic Field |
| | Black Oak Canopy | | Proposed Reserve Septic Field |
| | Existing Road | | Proposed Reserve Septic Field |
| | Proposed Road Improvements | | Proposed Reserve Septic Field |
| | Existing Pedestrian Paths | | Approved Septic Site |
| | Parking Area | | Existing Underground Telephone Line |
| | Use Permit Boundary | | New Underground Telephone Line |
| | Proposed Residential Building Site | | Portable Wells |
| | Existing Residential Building | | Irrigation Wells |
| | Proposed Non-Residential Building | | Portable Water Distribution System |
| | Existing Non-Residential Building | | Portable Water Pump Lines |
| | Existing Storage Building | | New Portable Water Distribution |
| | New 12kV Power Main Line | | New Portable Water Pump Lines |
| | Residential Service Power Line | | 10,000 G Fire Water Tank with Hydrant |
| | Existing Power Pole | | Project Impacts: See Wetland Habitat Management Plan Pg. 10 |
| | Existing Aboveground Power Line | | |

Notes

- CONTOURS**
25' Contour Interval
Contour Basis from USGS Contours, Aerial Flyover, and Ground Check
- ROAD DATA**
See Road Site Plan
- PARKING AREAS**
See Road Site Plan
- POTABLE / FIRE WATER**
Stub out 4" Ø potabile/fire water line to serve future Temple
- Place new 4" Ø potabile/fire water line to existing fire hydrant opposite building #13, and serve buildings # 12-16.
- Extend new 4" Ø potabile/fire water line to new fire hydrant near building 5, and serve building #5 and 6.
- Extend new 4" Ø potabile water line to serve buildings #2-4 and #7-11, and existing 2" Ø irrigation line.
- Existing 60,000 gal dedicated fire water storage at Lotus Lane will serve Expanding Light complex and future Temple. (See Existing Water System map)
- SEPTIC**
Develop additional septic field for E.L. expansion based upon additional guest facilities and support facilities demand.
- Develop septic field for new Temple-Detailed Septic field testing required per County Specification prior to grading or building permits.
- Existing field function plus recent spot approvals sufficient for Master Plan review. (See Narrative Appendix 4.)
- ENVIRONMENTAL CONSTRAINTS**
- See Exhibit E-2a
- ELECTRIC POWER**
Existing 36 kW Solar Capacity to E.L. complex
Existing power from existing PG&E transformers to E.L. overnight accommodation expansion, new yoga buildings and new offices as needed.
Extend power from existing transformer to new Temple.
- TELEPHONE/CABLE**
Village System to be extended to new E.L. overnight accommodations and to new Temple
- PROPANE**
To be set individually as buildings are built (not shown)
- LIST OF BUILDING USES**
- (1) New Temple
 - (2) Existing Temple
 - (3) Dining
 - (4) Kitchen Offices
 - (5) Reception
 - (6) Boutique
 - (7) Meditation Temple
 - (8) Dormitory Lodging (1 Existing, 1 New)
 - (9) Shower Houses (1 Existing, 2 New)
 - (10) Cabins or Tent Cabins (4 Existing, 20 New)
 - (11) New Yoga Hall/Offices
 - (12) New Administrative Offices
 - (13) Serenity House
 - (14) Harmony House A -B
 - (15) Friendship House
 - (16) New Harmony House C - F
 - (17) Staff Residence (1 Existing, 3 New)
 - (18) New Yoga Hall
 - (19) Wellness Center
 - (20) Storage Building
 - (21) Maintenance Building and Sheds
 - (22) Pump House Irrigation Well
 - (23) Dining Pavilion
 - (24) Memorial Arava Pergola
- NOTE:**
THIS MAP IS NOT INTENDED FOR CONSTRUCTION PURPOSES
