## COVID-19 Cleaning Recommendations for Home & Residential Settings with Persons with Known or Suspected COVID-19 Infections

February 26, 2020

These recommendations are based on what is currently known about the Coronavirus Disease 2019 (COVID-19) and will be updated as needed and as additional information becomes available. Recommendations are given below for:

- Cleaning,
- Laundry, and
- Disposal of Waste

**Intended audience:** Persons with known or suspected COVID-19 infections, Persons Under Investigation (PUIs), persons in voluntary or involuntary quarantine, and persons caring for such persons or living in the same household.

### RECOMMENDATIONS

**Cleaning:** Clean All "High Touch" Surfaces Every Day:

- High touch surfaces include kitchen counters, tabletops, doorknobs, bathroom fixtures, toilets, phones, keyboards, tablets, and bedside tables, every day.
- Also clean any surfaces that may have blood, stool, or body fluids on them. This cleaning should be done immediately. **WASH YOUR HANDS** (with soap and water) after any cleaning activity.
- Use a household cleaning spray or wipe. Attached is current listing of all cleansers that can be used to disinfect surfaces.

**No additional disinfection beyond routine cleaning is recommended.** Neither the US Centers for Disease Control and Prevention (CDC) nor the Nevada County Department of Environmental Health (NCDEH) recommends that additional or special disinfection procedures or products be used at this time.

**When cleaning, follow the label instructions for safe and effective use of your cleaning product.**

- Please pay attention to the safety equipment such as gloves which are specified on the label.
- For concentrated products requiring dilution, do not use more of the product than is specified on the label. Using more product does not improve cleaning and can cause problems for users or room occupants.
- Make sure you have good ventilation during the use of the product.
- Please be aware that some household cleaning products such as bleach, ammonia, "pine oil", and perfumed products can cause respiratory irritation to persons with coughs or respiratory illnesses. Consider using alternate, lower odor cleaning products when such persons are present.

## Laundry:

- Wear disposable gloves while handling soiled items and keep soiled items away from your body. **WASH YOUR HANDS** (with soap and water) immediately after removing your gloves.
- Immediately remove and wash clothes or bedding that have blood, stool, or body fluids on them. **WASH YOUR HANDS** (with soap and water) after handling.
- Read and follow directions on labels of laundry or clothing items and detergent. In general, using a normal laundry detergent according to washing machine instructions and dry thoroughly using the warmest temperatures recommended on the clothing label.

## Waste Disposal:

Place all used disposable gloves, facemasks, and other possibly contaminated items in a plastic bag or lined container. Tie the bag off or close the lined container disposing of it with other household waste.

**WASH YOUR HANDS** (with soap and water) immediately after handling these items.

## Novel Coronavirus (COVID-19)—Fighting Products<sup>i</sup>

The American Chemistry Council's (ACC) Center for Biocide Chemistries (CBC) has compiled a list of products that have been pre-approved by the U.S. Environmental Protection Agency (EPA) for use against emerging enveloped viral pathogens and can be used during the 2019 novel coronavirus (COVID-19) outbreak. This product list is not exhaustive but can be used by business owners, health professionals, and the public to identify products suitable for use against COVID-19.

The information in this document is being provided as a public service. All efforts have been made to ensure the information is accurate, but ACC and CBC make no representations or warranties as to the completeness or accuracy of the information. ACC, CBC, and the product manufacturers listed in this document reserve the right to change, delete, or otherwise modify the information without any prior notice. Persons receiving this information must make their own determination as to a product's suitability prior to use based on the product labeling. ACC and CBC do not guarantee or warrant the standard of any product referenced or imply approval of the product to the exclusion of others that may be available. All products listed are registered for labeled uses in accordance with federal laws and regulations as of the date this document is being made available. State regulations may vary. In no event will ACC or CBC be responsible for damages of any nature whatsoever resulting from the use of or reliance upon products to which the information refers.

**For use of the product,** please contact the company/distributor to confirm use directions, or consult the EPA approved label at <https://www.epa.gov/pesticide-labels/pesticide-product-label-system-ppls-more-information>.
