## ALL NEW RESTRUCTURING OF THE JAIL WORKSHOP TOPICS

- Is managing transsexual/transgender inmates presenting a problem in your jail? Are there issues arising around sex in your jail? Do you separate males from females? Do you even know what male or female is? Think so? A new session in this upcoming workshop will focus on the issues surrounding "What are Transgender and Transsexual."  
**Join us for "Sex in the Jail - Gender Identity or What You Feel You Are."**
- Are you experiencing issues of staff sexual misconduct in your jail? Do you have a problem understanding how and why this comes about?  
**Join us for "Sex, Power and Staff Misconduct in the Jail."**
- Lawsuits to the left of me, lawsuits to the right of me! Recognize you can't stop them but that you can "harden the target." Learn the litigation lessons that will help you minimize your exposure to litigation.  
**Join us for "Hardening Target Jail: Simple Steps to Deflect Litigation."**
- Opioid addiction and opioid withdrawal deaths; How do we manage this crisis? Cases working through the courts are seeking changes to how we view, manage and treat opioid addiction in the jail setting.  
**Join us for "MAT: Medication Assisted Transitioning - Coming to Jail Near You."**
- We all recognize the need to occasionally use force in the jail. But what happens when that use of force goes bad? Join us for a video examination of use of force situations gone bad and recommendations for avoiding disaster.  
**Join us for "Video Analysis of Bad Force Decisions."**
- Muslim, Christian, Buddhist, Wiccan, Jewish. The jail is a smorgasbord of "deeply held religious beliefs." In the past we've tried to provide religious programming. Join us for why this is a problem of our own making and how to get out of the box.  
**Join us for "Ending Governmental Establishment of Religion in Jails and Prisons."**
